May 15, 2020

Dear Parents, Guardians and Students,

This school year has been an unprecedented one in many ways. Many are working harder than they ever have but in a much different way. As a community, we stayed and worked through what would have been our highly sought after 2 week spring break. This has felt like a marathon in many ways and one where we did not know where the final mile marker was. After receiving some clarification from education officials we now know what the end of the instructional year will look like.

Monday, May 25th, is Memorial Day and there will be no classes for students. Please enjoy this holiday weekend with your family.

Tuesday, 6/9 will be our last day of the academic quarter and all work should be submitted by then. The last Monday we will be sending home school work packets will be Monday, 6/1. The last day of 'newly assigned work' will be scheduled for grades 7-12 on Monday, 6/1.

Jr/Sr High final exams will take place June 1-June 9 during regularly scheduled classes. These projects/exams/presentations will still be worth 12% of the overall course grade.

June 10th-June 25th will be designated for materials collection. Empty envelopes will be sent home on June 1st with instructions for returning all materials beginning on June 11th, 15th, 18th, and 22nd. Instructions will be included but please have all materials in the bag ready for pickup at 10am on the day you choose for pickup and left outside for our drivers in a visible location.

Graduation still has many questions surrounding it and will be a fluid situation as we receive more announcements from the Governor every 2 weeks. At this point, anything we try to plan for will be planned with the June 26th date kept in place. Virtual meetings with students will continue, virtual meetings with parents will be scheduled and more information will follow as it becomes clear.

The mission of the Town of Webb UFSD, in collaboration with the community, is to foster

academic excellence, create responsible citizens, and promote life-long learning.

Lunch deliveries will continue in June with the last delivery day being Monday, 6/22. It is not too late to sign up, so please email jdunn@towschool.org if you would like to be added to the list.

Thank you to all of you for your hard work and dedication. Please continue to work diligently as we push to make the best of this year. Your effort and determination will pay off in future years and on many levels.

Sincerely,

Rex A. Germer
Superintendent

John S. Swick
PK-12 Building Principal
